To Help Increase Weight, Build  
Up Weak Nerves, Enrich The  
Blood, Renew Vitality And  
Protect Yourself Against The  
Ravages Of Time.

Many a woman is allowing the signs of  
old age to creep into her system, robbing  
her face and figure of youthful beauty and  
charm, simply because she fails to get  
enough of the proper muscle, bone and  
tissue-making elements from her food to  
keep her flesh firm, her blood rich and  
red, and her system filled with energy and  
vitality. As a result, at the time of  
life when she should be in her prime, at  
her very best, the first tell-tale evidences  
of departing youth appear—the muscles  
and tissues of her body become soft and  
flabby, her cheeks sunken, her nerves un-  
strung and she often becomes the victim  
of ill-health, with a gradual weakening  
of her physical forces.

If such women would only get some good,
